Mark,

As a Septic Inspector / Pumper we often encounter failed septic systems. I have tried several after market products designed to treat and restore failed drain fields. After meeting with Mark I decided to give Septic Drainer a chance. The very first time I used the product I was very pleased. Instead of spending thousands of dollars to install a new septic system we were able to restore the existing one. I expect with regular applications of the Septic Drainer the system will serve the homeowner for a very long time.

Thank you,

Scott A. Bailey (President)
Bailey's Inspection Services, Inc.
